

ABOUT THE PROGRAM

As guided by the vision, mission and goals of Hands of Love Philippines Foundation, Inc. (HOLPFI), to become the peacemaker to the communities and develop human resource, the organization started a program to empower people to meet their needs and the needs of the community to advance toward building up God's Kingdom in the Philippines.

With this, the organization commits to give opportunities to underprivileged Mangyan and Tagalog students who have a high interest to pursue their studies in High School and College.

Through this, together with our partner sponsors we share with the same vision that this step will lead to awareness of their own potential and will equip the students, as well as the parents of the students to have a sense of leadership and community. Also, the students will have the capacity to give back to their community and other people in need in the near future.

GOAL: Give opportunity for higher education to enable students to have stewardship over God's given talents and develop his/her capacity
